

TIMEDICO A/S

Milestones reached

November 2013

'We save time, money and ensure better treatment at hospitals all over the world'

The beginning - 2011

- The ideas and visions of a transport system for sample tubes results in the company TIMEDICO A/S established by Daniel Blak and Peter Sørensen
- 12 TEMPUS600 systems installed at Danish hospitals
- 6 employees

Time for development - 2012-2013

- Constantly under development - TEMPUS600 is now present at the market in its 6th version
- 50 TEMPUS600 system installed at National and International hospitals
- The TEMPUS600 system is a part of the first handsfree 'Total Lab Automation' system in which the sample tube is not touched by human hands from the launch at the ward and until the analysis result is ready at the laboratory
- Distributors established in Europe, Asia and Scandinavia.
- TIMEDICO A/S is proud of now having 12 employees.

Milestone - November 2013

TIMEDICO A/S is extremely proud of being chosen as winner of the award 'VækstIværksætter 2013' (entrepreneur award) given by Business Development Centre Herning & Ikast-Brandø. For TIMEDICO A/S the award is a result of an excellent work of all employees.

The award is given yearly to a company on the basis of the following criterias:

- The good idea
- Realisation of the good idea
- Growth potential (realised or potential)

The award consisted of a sculpture made by Jørgen Petersen and handed by Chief Consultant Jens Ravn, Chairman Søren Skræddergaard and Manager of Business Torben Henriksen.
