

July 2014

Grand Opening Day - Tempus Asia, June 6, 2014

Tempus Asia is now officially opened in Bangkok, Thailand. The Danish Ambassador, Michael Hemni Winther was along during the entire day from monk ceremony to press conference and at night a VIP arrangement in his house. Find more information and pictures at www.tempus600.com.

Tempus600 at IFCC 2014 Istanbul, Turkey

IFCC Istanbul 2014 was a great success for Timedico and Tempus600. We had a perfect location which attracted a great attention with a lot of meetings and visitors to our booth.

It was a pleasure to meet both hospitals and future distributors from a big part of the world. It seems like the Nordic countries didn't have the great involvement but the South and East of Europe, the Asian and the Middle East was very well represented.

We were also very proud to see that Sygehus Lillebælt, Denmark had made a poster about the stability of blood in Tempus600 and also the saved time in TAT.

This proves the high quality of Tempus600 from a user's point of view and also the benefit in time is documented.

The poster is to be found at www.tempus600.com.

New website - new design

In cooperation with Happy & Co we have developed a new website for Tempus600.

As a new feature you are in the new website given the possibility to search for your local distributor or reference system in an interactive map.
